PlanetBravo Technology Education After-School
UNITY GAME PROGRAMMING
4TH-5TH GRADE FRIDAYS 3:00PM-4:00PM

ABOUT THE CLASS:

Starting: January 26th, 2018

This course introduces students to the Unity Engine. Students in this course design and code their own 3D games using C#. This course is a must for students who are serious about trying out different coding languages and game development practices.

After-school course is for students of Kenter Canyon Elementary.
