

EARTH DAY 2019 ACTIVITY

Monday, April 22, 2019

In order to encourage environmental awareness in honor of the Earth Day 2019, we invite our students to participate in

Kenter Earth Day Upscale · Reduce, Reuse, Recycle, Repurpose

Requirements: Make a 3-dimensional project no larger than a regular sized back pack. All materials must be recycled or repurposed materials from the home to create a 3-dimensional project or sculpture of the student's own theme and title. Submit completed projects on Earth Day, Monday, April 22nd. Projects will be displayed for viewing in the Auditorium. Students will bring their sculpture to the auditorium and place on the table for others to see throughout the day. We look forward to Kenter students' creativity with repurposed and recyclable materials.
