

Student Health & Human Services

## School Mental Health

We promote the mental health, well-being and academic achievement of all LAUSD students.

**LAUSD School Mental Health (SMH) professionals promote the mental health, well-being, and academic achievement of all LAUSD students.**

**Parents and staff can work together to improve student's mental health and promote academic success. Just as it is important to secure the physical health of your child it is also important to prioritize their mental health needs. Parents and families can strengthen mental health in the home environment to improve their child's ability to bounce back from stressful situations.**

**Visit <https://achieve.lausd.net/Page/15487> for additional information and resources.**
